

4002.21 - Marine Biology Seminar
Semester A, B 2020-2021

Time: Thursday 10:15-12:00

Instructor: Dr. Tal Luzzatto-Knaan

Office Hours: With pre-coordination- tluzzatto@univ.haifa.ac.il

Course Type: Lectures

Course Level: MSc, PhD

Pre-Requisites: None

Course Overview:

The Marine Biology Departmental Seminar is a mandatory course that meant to enrich and expand the scientific horizons of students by exposing them to cutting-edge science. Students will hear from leading scientist from Israel and around the world in various fields of life sciences and marine related topics. Industry, environment and nature reserve experts are represented as well, to demonstrate potential utilities and opportunities in science. This course is also a platform for graduating PhD students to present their research to colleagues and peers in the department.

Topics:

All life science disciplines or Marine related issues.

At the end of the course, students will:

1. Be acquainted with leading scientists from Israel and abroad.
2. Gain knowledge on cutting-edge science from various scientific and/or marine disciplines.
3. Be updated on various research tools and techniques

Requirements: Mandatory for 4 semesters for MSc and 8 semester for PhD. Attendance is required in at least 80% of lectures per semester. Seminars held via Zoom and students are required to attend with open cameras.

Grading: Pass/ No-pass

Website: Registration for students is required via moodle.
