

## **CURRICULUM VITAE**

### • **Personal Details**

Name: Prof. Muki Shpigel

P.O.B: Haifa, Israel

Work: Morris Kahn Marine Research Station, Department of Marine Biology, Leon H. Charney School of Marine Sciences, University of Haifa.

Home Tel: 972-52-3330111

[shpigelm@gmail.com](mailto:shpigelm@gmail.com); [mshpigel@univ.haifa.ac.il](mailto:mshpigel@univ.haifa.ac.il)

### • **Education**

B. Sc. 1972-1974 at Tel Aviv University in Biology.

M. Sc. 1974-1978 (with honors, Tel Aviv University) in Marine Biology.

Title of thesis: "The spatial heterogeneity in branching corals and fish species diversity"

Advisor: Prof. Yossi Loya.

Ph. D. 1978-1985, Tel Aviv University in Marine Biology.

Title of thesis: "Aspects of the biology and ecology of the Red Sea groupers *Cephalopholis* (Serranidae, Teleostei)".

Advisor: Prof. Lev Fishelson

1989-1990: Postdoctoral position at the Virginia Institute of Marine Science (VIMS) in Prof. Roger Mann's department. Research subject: bivalve bioenergetics.

### • **Positions Held and Academic Status:**

2018-todate: Senior Research Scientist. Morris Kahn Marine Research Station, Department of Marine Biology, Leon H. Charney School of Marine Sciences, University of Haifa.

2017-2018: Visiting scientist at the "Interuniversity Institute for Marine Sciences" 2010-

to date: Adjunct Professor "Ben Gurion University of the Negev". 1985-

2017 (RETIRED): Senior Research Scientist at the Israel Oceanographic and Limnological Research, National Center for Mariculture (Grade A+).

1998-1999: Sabbatical leaves, at N.O.A.A, Milford Laboratory, Milford, CT, USA.

### • **Employment History**

1985 -2017: Head of the Department of Integrated Multi-Trophic Aquaculture (IMTA) Systems.

1982-1985: Research assistant, Department of Zoology, Tel Aviv University (for Profs. L. Fishelson and Y. Loya).

1982-1985: Chief Scientist in environmental impact surveys carried out for the Municipality of Herzlia, Israel (1982-1983).

1984-1985: Preliminary impact survey for the municipality of Haifa.

1985: Aquaculture-recreation impact survey for a private company in Nigeria

1975-1982: Field Study Center, Naama, Sinai. The Society for the Protection of Nature in Israel. Responsible for nature protection in the Gulf of Eilat.

Head of educational program of the Field Study Center.

1973-1974: Assistant curator, Zoological Museum, Tel Aviv University.

- **Professional Activities**

**(a) Professional and Academic administration functions:**

- 2017: Member of grants evaluation committee for the “ministry of sciences”.
- 2012-2017: Expert Panel of the EU commission.
- 2015: Member of grants evaluation committee for the “ministry of agriculture”.
- 2015: Member of grants evaluation committee for the ERA-Net COFASP “French National Research Agency”
- 1999-2009: Member of the honors and awards committee, the World Aquaculture Society.
- 2006: Session organizer of the polyculture session for the World Aquaculture conference in Florence, Italy in May 2006.
- 2005: Committee member in EFARO (European Fisheries Aquaculture organization) on future of aquaculture in Europe.
- 2003: Steering committee member in the Sea Urchin Conference in Chile 2003.
- 2002: Session organizer of the polyculture session for the World Aquaculture Society conference in Beijing, China.
- 2001: Organizer and moderator of polyculture session for the World Aquaculture Society conference in Orlando, Florida, USA.
- 1985-1988: Advisor to the Ministry of Environment of Israel on various issues concerning nature protection such as the impact of yacht marinas and sedimentation on coral reef ecosystems and the impact of sewage on the coral reefs.
- 1985-2000: Advisor to the "Nature Reserves Authority" on various issues concerning nature protection of coral reefs such as the impacts of divers and underwater vessels on the coral reef ecosystem and the impacts of commercial rearing of local reef fish on the coral reef.
- 1993-1999: As member of the Israeli Diving Federation directorate, initiated and established a foundation for M.Sc. students for research on the marine environment.
- 1993-1998: Advisor to the Israel Union for Environmental Defense on various issues concerning nature protection.
- 1998: Invited by Fremantle University of Tafe, West Australia as a consultant to set up an experimental IMTA system.
- 1998: Invited to Big Island Abalone Farm in Kailu-Kona, Hawaii as a consultant to set up abalone-seaweed integrated system.
- 1992-2000: Board of Directors, Israeli Underwater Federation (22,000 members).  
Head of the Environmental Protection Committee.
- 1998: Organizer of the Integrated Systems Session for the World Aquaculture Society conference in Sydney, 1999.
- 1993-1995: Steering Committee and preparation of the curriculum course on mariculture for the Maritime and Mariculture College “Mevuoth Yam” Michmoret
- 1992: Organizer of a meeting on Sea Protection with the Institute for Nature Conservation Research of Tel-Aviv University and the Israeli Underwater Federation on sea protection. Tel-Aviv University. September 23, 1992.
- 1976-1982: Chief Scientist in marine and terrestrial surveys in the Sinai Peninsula, for the Society for the Protection of Nature in Israel.

**(b) Editor or member of editorial board of scientific/professional journal:**

- 1999- 2016- Associate Editor "Journal of the World Aquaculture Society"  
2007- 2014- Associate Editor "Journal of Applied Aquaculture"  
2012- 2014- Associate Editor "journal Aquatic Biosystems"  
1988-1995- Editorial board "YAM" (diving magazine). Editor of a special issue (1994)  
devoted to the protection of the sea

**(c) Reviewer of manuscripts for the following journals:**

1. Aquaculture.
2. Aquacultural Engineering.
3. Aquaculture International.
4. Aquaculture research.
5. Bamidgeh.
6. Journal of Experimental Marine Biology and Ecology.
7. Journal of Shellfish Research.
8. Marine Biology.
9. Marine Ecology.
10. Environmental Technology.
11. Journal of applied phycology

**(c.1) Reviewer of grant proposals submitted to:**

1. The German Israeli Foundation for Scientific Research and Development (GIF).
2. The Israel Inter-University (IUI) Ecology Fund
3. Binational Agriculture Research and Development Fund (BARD, Israel-US)
4. The Israel Science Foundation (ISF).
5. SBIR-Small business innovation research, Department of Commerce - USA
6. The Israel Academy of Science and Humanities.
7. Ministry of Agriculture, South Africa (NRF).
8. Ministry of Agriculture, Israel.
9. EU commission (expert panel-2011-2015)
- 10 GIF, German Israel foundation

**(d) Membership in professional/scientific societies:**

- 1987 – Today World Aquaculture Society  
1990 – Today European Aquaculture Society.  
1987 – 2016 National Shellfisheries Association, USA  
2004 – 2014 Israel Society of Aquaculture  
1985 – 1995 Israel Society of Zoology

**Educational activities**

**Courses taught**

**a. National**

- 2017-2019: Lecturer at the Maritime College of Mikhmoret on: 1. Introduction to Mariculture.  
2009- 2017: Ben Gurion University, "Fish Biology, Ecology and Biotechnology".  
1995- 2013: The Faculty of Agriculture, Hebrew University of Jerusalem.

- Coordinator of the course “Introduction to Mariculture” and lecturer on “Molluscs in Mariculture” and on “Marine Polyculture and Integrated Systems”.
- 2000–2003: A guest lecturer at the Heinz Steinitz Interuniversity Institute, Eilat in the course “The Ecology System of the Gulf of Eilat” (Coordinators - Drs. A. Ganin and Micha Ilan).  
Lecture on “The Effects of Mariculture on the Gulf of Elat”, “Predator-Prey Interactions and Sex Reversal in the Coral Reef Ecosystem” and “Environmentally Friendly Aquaculture in the Gulf of Elat”.
- 1998-2000: Lecturer at the Maritime College of Mikhmoret on: 1. Fish behavior. 2. Introduction to Mariculture
- 1994–2000: The Faculty of Agricultural Engineering, the Technion, Haifa: Coordinator of the course “Introduction to Mariculture” and lecturer on “Bivalves as a Biofilter” and “Marine Polyculture”.
- 1986-1993: Faculty of Agriculture, Hebrew University of Jerusalem.  
Lecturer on: “Bivalve Culture and Reproduction” (Part of the course “Introduction to Mariculture”, coordinator - H. Gordin)
- 1982-1985: Teaching assistant in the following courses given at the Department of Zoology, Tel Aviv University:  
Invertebrate Zoology- Prof. Y. Loya  
Marine Ecology - Prof. L. Fishelson  
Life in the Intertidal Zone of the Mediterranean - Dr. M. Goren

## **b. International**

- 2013: Visiting Professor in Cagliari University, Sardinia, Italy. Coordinator of the course “Introduction to Mariculture”
- 2005: China-Israel workshop on Aquaculture, Qindao, P.R. China
- 2005-2011 Lecturer in the international post graduate course on aquaculture organised by the Faculty of Agriculture, Hebrew University of Jerusalem.
- 2003: Invited as lecturer in international advanced seminar on mollusk production in Mediterranean countries by CIHEAM, Zaragoza, Spain.
- 2002: Invited as lecturer by CIHEAM to international training course on “recirculation systems for fish culture” in Sete, France in January 2004.
- 2000: Invited as lecturer in advanced training course of Sea Urchin Aquaculture and integrated systems, at the International Marine Center, Torregrande, and Sardinia, Italy.
- 1988-1990: Guest lecturer at the University of Maryland, Dept. of Zoology: “Space Partitioning and Symbiosis in Coral Reef Fish” (part of the course “Life in the Ocean”, coordinator - Prof. Eugenie Clark).

## **a. Research students**

- 1988-1990: Miron Sarid, M.Sc. student, the Faculty of Agriculture, The Hebrew University of Jerusalem. Thesis title: "The influence of water temperature, algae concentration and water flow on the filtration rates of *Crassostrea gigas*". Guidance with Prof. Balfur Heffer.
- 1991-1992: Micha Vaisbaum, graduate student, a final project for the degree of engineer. The Faculty of Agricultural Engineering, The Technion, Haifa.

- Thesis title: "Grading machine for edible oysters". Guidance with Prof. Eitan Kimmel).
- 1992-1994: Alon Ben-Gal, M.Sc. student, Department of Environmental Sciences, The Hebrew University of Jerusalem.  
Thesis title: "Bioaccumulation of halogenated phenols from chlorinated seawater in bivalve molluscs". Guidance with Prof. H. Shual.
- 1993-1994: Dana Zelding, final project for the degree of practical engineer. The Braude Bioengineering College, Carmiel.  
Thesis title: "Using edible oysters and clams as a biofilter of fishpond effluents".
- 1993-1994: Gal Hauzer, final project for the degree of practical engineer. The Braude Biotechnology College, Carmiel.  
Thesis title: "Bioenergetics of the European abalone, *Haliotis tuberculata*."
- 1993-1994: Shaul Golomb, graduate student, final project for the degree of engineer. The Faculty of Agricultural Engineering. The Technion, Haifa.  
Thesis title: "Commercial methods for collecting burrowing clams from the sediment". Guidance with Prof. Eitan Kimmel.
- 1998: Nurit Gordon, M.Sc. student, Faculty of Agriculture, The Hebrew University of Jerusalem. Thesis title: "Nutritional requirements of metamorphosed abalone (*Haliotis discus hannai*)". Guidance with Drs. S. Harpaz and A. Neori. Guidance with Dr. Amir Neori and Prof. Jaap Van Rijn. The Faculty of Agriculture.
- 2001-2002: Andreas Schuenhoff, M.Sc. student, University of Las Palmas de Gran Canaria, Portugal. Thesis title: "The Performance of a Semi-Commercial, Integrated System for the Culture of Fish and Seaweed."
- 2003-2006: Eran Hadas, Ph.D. student, Tel Aviv University. Thesis title: "Energy budget on the demosponge *Negombata magnifica*." Guidance with Dr. Micha Ilan. Tel Aviv University. (with honors).
- 2004-2007: Hyar Katz, M.Sc. student, Faculty of Agriculture, The Hebrew University of Jerusalem. Thesis title: "Nitrogen budget in fish, bivalves, seaweed integrated system". Guidance with Prof. Jaap Van Rijn. The Faculty of Agriculture.
- 2010-2014: Hanit Ben Ari: Ph.D. student, BGU University. Thesis title: Control the gametogenesis of the purple sea urchins *Paracentrotus lividus*. Guidance with Dr., Hanna Rosenfeld (with honors).
- 2010-2014: Tomer Ben Ari: M.Sc. student, BGU University. Thesis title: Nutrient and energy budget in Multi-trophic integrated mariculture system (with honors).
- 2011-2015: Erez Yeruham: M.Sc. Student, Tel Aviv University. Thesis title: Ecology of the sea urchins *Paracentrotus lividus* in the Eastern Mediterranean coast. Guidance with Prof. Abelson Avigdor.
- 2016-2017: Dr. Suzanne Buxbaum. A Post-Doc position.
- 2016-2018: Matan Yona: M.Sc. Student. Department of Environmental Sciences. The Hebrew University of Jerusalem. Thesis title: biomineralization processes in sea urchins using fluorescent dyes and confocal microscopy. Guidance with Prof. Jonathan Erez.
- 2019: Itay Kalski. M.Sc. Student. Morris Kahn Marine Research Station, Department of Marine Biology. Leon Charney School of Marine Sciences, University of Haifa. Guidance with Prof. Tali Mass..

1. 1985-1988: United States - Israel Binational Agricultural Research and Development (BARD). “Oyster production in the outflow of salt water fish ponds” (**Co-investigator** in 1985 and **PI** in 1986-1988). **\$150,000** Researcher's part **\$75,000**
2. 1994-1997: European Economic Community. **INTAB**. Develop a technology for polyculture of seaweed and macroalgivores on fishpond effluents. **PI of the project. Investigator. \$450,000** Researcher's part **\$113,800.**

3. 1996: European Economic Community. Development of environmentally friendly technologies for recycling nutrients from fish farm cages: phyco-depuration and secondary crop production. **Co-investigator** in a grant of **45,000 Euro** Researcher's part **EU 10,000**.
4. 1998-2000: European Economic Community and the Ministry of Science and Technology of Israel to develop a pilot system for polyculture of seaweed and macroalgivores on fishpond effluents. **PI of the project**. Budget: **1,710,000 Euro**. Researcher's part: **EU 171,000**.
5. 1999-2001: Texas Israel Exchange Fund Program. Pilot scale production of the edible sea urchin, *Paracentrotus lividus*, in environmentally friendly land-based facilities: effect of photoperiod, temperature and diet on gonad production. \$100,000, **PI of the project**. Researcher's part: **\$49,550**.
6. 2000-2001: Binational Research and Development (BARD). The development of sodium alginate encapsulation of diatom concentrates as a nutrient delivery system to enhance growth and survival of post larval abalone. **PI of the project**. **\$100,000**. Researcher's part **\$50,000**.
7. 2001-2003: Texas Israel Exchange Fund Program. A pilot scale environmentally friendly, land based integrated system for the production of shrimp, fish and seaweed. **PI of the project**. **\$108,000**. Researcher's part **\$54,000**
8. 2001-2004: European Economic Community. **GENESIS**. `Polyculture for bio-purification of fish farm effluents; Culturing of bivalves and macroalgivores to convert macro and micro-algae from mariculture effluent biofilters into high value crops (abalone and sea urchin). **M. Shpigel coordinator of the project**. Budget: **2,500,000 Euro**. Researcher's part: **230,000 Euro**.
9. 2004-2007: European Economic Community. **SPIINES**, Sea urchins in integrated systems, their nutrition and roe enhancement: **Budget: 806,213 Euro**. **P PI of the project**. Researcher's part: **147,554 Euro**.
10. 2004-2007: **BARD**. Novel marine natural products from sponges and associated microorganisms, **Budget \$ 288, 000**. **CO**. Researcher's part: **\$ 75,000**.
11. 2005-2009: **CORALZOO**. European Economic Community. Improving in-situ and ex-situ mass culturing methodologies of exotic marine invertebrates for the ornamental trade and public aquaria. **PI of the project**. **Budget 2, 610, 000 Euro**. Researcher's part: **255,000 Euro**.
12. 2006-2009: **ENVIROPHYTE**. European Economic Community., Improvement of the cost effectiveness of marine land-based aquaculture facilities through use of Constructed Wetlands with *Salicornia* as an environmentally friendly biofilter and a valuable by-product. **M. Shpigel coordinator of the project**.. **Budget 1,644,550 Euro**. Researcher's part: **\$ 226,000 Euro**.

13. 2007-2010: **MERC-USAID**. Integration of Gilthead Sea bream, *Sparus aurata*, Culture with Shellfish and Seaweeds in a Polyculture System to Increase Profitability and Reduce Environmental Enrichment. **PI of the project. Budget \$ 496,100.** Researcher's part: \$ 243,650.
14. 2008-2011; **Enrich**. Enrichment of aquaculture systems by introduction of commercially underdeveloped marine species from different trophic levels. **PI of the project. Budget 1,108,000 Euro,** Researcher's part: **117,300 Euro.**
15. 2008-2011; **BARD (Texas)**. Cultivation of the halophyte *Salicornia* sp. in constructed wetlands for purification of shrimp effluent water and production of biodiesel fuel. **PI of the project. Budget \$360000.** Researcher's part: **\$ 90,000.**
16. 2010-2013: **MERC-USAID**. Integration of the IMS project with the development of all female mullet populations to improve production and the enhancement of egg roe for Batarekh/Karasumi production. **PI of the project. Budget \$ 496,100.** Researcher's part: **\$ 122,650.**
18. 2013-2016: **RESURCH**. Research & technological development to improve economic profitability and environmental sustainability of sea urchin farming. **PI of the project 1.108.900 Euros budget.** Researcher part **88,000 Euros.**
19. 2017-2020: **COST action**, EU COST Action "Oceans Past Platform" (travel expenses).
20. 2017-2020: **BARD**. Use of plant based biofilters to create sustainable mariculture systems. **CO:** budget \$360000.
21. 2020-2022: **Ministry of Science**. Exploring perennial *Sarcocornia* as a halophyte biofilter for mariculture effluents and a source for lucrative foods and biochemicals. Budget: 389000 ISL.
22. 2021-2025: **COST Action (CA-201106)**. Tomorrows wheat of the sea: *Ulva* a model for an innovative mariculture **Project coordinator**, budget 600000 Euros

## **B. National Competitive Grants**

1. 1994-1998: **MAGNETON** (with SeaOr Marine Ltd.), to develop commercial integrated culture of abalone in Israel. PI of the project. The initiative is funded by a grant of \$300,000 from the Ministry of Industry and Commerce and an additional \$150,000 from Seaor Marine Ltd
2. 1997-1998: **MAGNETON**, the Ministry of Industry and Commerce. Biotechnology of algal cultivation and product development (principal investigator Dr. M. Friedlander). Co-investigator. Budget: \$ 200,000. **Researcher's part: \$12,000.**
3. 2000-2003: **Ministry of Agriculture**. Domestication of the purple sea urchin, *Paracentrotus lividus*, in environmentally friendly land-based facilities: growth rates, survival and the quality of the product. PI of the project. \$155,000.

4. 2001-2003: **MAGNETON**, the Ministry of Industry and Commerce. Development of culture system for shrimps (*Penaeus semisulcatus*) in sustainable land based system. PI of the project. Budget: \$350,000. Researcher's part: \$90,000.
6. 2013-2016: **IKA**. Use of *Salicornia* and *Sarcocornia* in constructed wetlands to treat effluents from intensive fish mariculture systems and its production as a high value, marketable commodity. PI of the project. Budget: \$59,000. Researcher's part: \$40,000.
7. 2019-2021: **Ministry of Agriculture**. Reproduction and farming of the Mediterranean snail *Hexaplex trunculus* for the production of the natural blue dye "tchelet". Budget 890,000 ISL Researcher's part: 890,000.

### **C. Other Research Grants**

1. 1981-1982: Council for Development of Sinai Peninsula, to study the ecology and biology of the red sea groupers of the genus *Cephalopholis*. Principal Investigator \$15,000
2. 1991-1992: Negev Arava R&D Network, the Jewish Agency (MOP Arava), to study bivalves as a biofilter in fishpond effluents. Principal Investigator \$25,000
3. 1992-1993: Negev Arava R&D Network, to study and develop biomechanical filters for fishpond effluents. Principal Investigator \$30,000
4. 1994-1995: Negev Arava R&D Network, to develop a pilot scale fish, bivalve seaweed integrated system (Principal investigators: H. Gordin and N. Mozes). Co-investigator. \$120,000
5. 1995-1996: NOAA, USA for a preliminary joint project with Prof. Roger Mann (USA) and Dr. Raouf Kilada (Egypt) for a field survey to study *Tridacna* sp. populations in the Gulf of Aqaba. Principal Investigator. \$22,000  
Researcher's part \$8,000
6. 1996-1997: Irish government, for program on international collaboration. The role of artificial diet supplement and grow-out techniques in the development of the Irish echiniculture industry. \$2,000
7. 2001: LycoRed firm, to evaluate the use of Lycopene in shrimps. \$12,000  
Researcher's part \$16,000.
8. 2008-2009: North American friends. Using fish ponds effluent water to culture stony coral. Principal Investigator Researcher's part \$18,000.

- **Lectures and presentations at meetings and invited seminars.**

- (a) **Invited plenary lectures at conferences/meetings**

### **A.1. Plenary session speaker (funded by the inviting organization or institution -\*)**

2003\*: Invited as **plenary session speaker and session co-chair** to European Aquaculture Society conference in Trondheim, Norway, 12-15 August 2003. See “29” above.

2007\*: Invited to be **plenary session speaker and chairman** to IMARES 10<sup>th</sup> Intl. Conference on Shellfish Restoration (ICSR) in Vissingen, the Netherlands, 12-17 Nov. 2007.

2018\* Invited to be **plenary session speaker and chairman** to 2<sup>nd</sup> International Fisheries and Aquaculture August 12-13, Amsterdam, the Netherland

### **a. 2. Keynote speaker (funded by the inviting organization or institution -\*)**

1999\*: Invited **as a keynote speaker** by the US National Aquaculture Association to present a paper on sustainable mariculture in Israel. Aquaculture America 99, Tampa, FL. USA.

1999\*: Invited **as a keynote speaker and chairman** by the World Aquaculture Society to the World Aquaculture meeting in Sydney, Australia to present a paper on sustainable integrated mariculture. Sydney, Australai.

2001\*: Invited **as a keynote speaker and chairman** to the World Aquaculture conference in Orlando, Florida, USA.

2002\*: Invited **as a keynote speaker and a chairman** to the World Aquaculture Conference in Beijing, China, presenting paper on "Integrated Mariculture Systems: An Overview".

2003\*: Invited **as a keynote speaker** to International Organic Aquaculture Workshop, Minneapolis, Minnesota, USA.

2003\*: Invited as **a keynote speaker** by Queensland Conservation Council and the Australian Marine Conservation Society to conference on marine aquaculture entitled "Putting the Green Back into the Blue". August 2003. Brisbane, Australia.

2003\*. **Invited as a keynote speaker to NATO** meeting. Advanced Research Workshop on "The Comparative Roles of Suspension Feeders in Ecosystems" The use of edible bivalves as a biofilter from fishpond effluents. October 2003. Nida, Lithuania, in.

2009: Invited as **a keynote speaker and chairman** to the European Aquaculture Society meeting. Multi-Trophic Systems: Benefits and Constraints. August 2009. Trondheim, Norway.

2012 \* Invited by the EU **as a keynote speaker** for the EU-Mediterranean conference on research and innovation to present a paper on “An Ecosystem based approach for fisheries and aquaculture”. April 2012. Barcelona, Spain.

- 2013\* Invited **as a keynote speaker** to the Conference “Third Marine Eco-Civilization Forum”. Paper presented: Eco-Civilization and Future Oriented Mariculture. 26-29 September 2013, Wenzhou, China.
2013. Invited as **a keynote speaker** to the Asian Pacific Aquaculture conference in Ho Chi Min Vietnam. Integrated multi-trophic mariculture systems: an ecological approach for sustainable aquaculture. December 2013. Hanoi, Vietnam.
- 2014\* Invited **as a keynote speaker and Chairman** to the 24th Pacific Congress on Marine Science and Technology PACON 2014. Integrated Multi-Trophic Mariculture Systems: An Ecological Approach for Sustainable Aquaculture . September 2014. Xian, China
- 2015 Invited **as a keynote speaker** to the 197<sup>th</sup> annual meeting of the National Shellfisheries Association (2015). Integrated Multi-Trophic Mariculture Systems: benefits and constrains. March 22-26, Monterey CA USA.
- 2017\*: Invited **as a keynote speaker** to the International Seaweed Symposium, IMTA in Wando Seaweeds Expo 2017. April 14-18, Wando, Korea
- 2017\*: Invited **as a keynote speaker to** the International Symposium on the IMTA, at the National Institute of Fisheries Science September 14-15, 2017. Busan, Republic of Korea.
- 2018\*: Invited **as a keynote speaker** to the *The 10th edition of the “Rendez-Vous de Concarneau: where Industry meets Science in marine biotechnology” will take place this year* on October 12th 2018. Concarneau France.
- 2020\*: Invited **as chairman and speaker** to 3<sup>rd</sup> India International Seaweed Expo&Summit 2020.

**a. Invited as Chairman and speaker:**

- 1997: Invited as **chairman and speaker** to 3<sup>rd</sup> International Abalone Symposium in Monterey, CA, USA.
- 2000\*: Invited as chairman and speaker by the World Aquaculture Society special session conference in Nice, France in 2000 and to present a paper on biofilters in mariculture systems.
- 2000: Invited as **chairman and speaker** to 4<sup>th</sup> Intl. Abalone Symposium, Capetown, South Africa.
- 2003: Invited as **chairman and speaker** to International Conference of Fisheries & Aquaculture, Puerto Varas, and Chile and to present paper on "Domestication of the European sea urchin (*Paracentrotus lividus*) in Israel".
- 2006: Invited as **chairman and speaker** of Sea Urchin Aquaculture and Fisheries session of the National Shellfisheries Association conference in Monterey, CA, USA in March 2006.

- 2006\*: Invited as a **session organizer** and as **chairman** to the World Aquaculture conference in Florence, Italy in May 2006.
- 2006: Invited as **chairman and a speaker** of the 12<sup>th</sup> International Echinoderm Conference in New Hampshire, USA, 7-11 August 2006.
- 2006: Invited as **a chairman** to 10<sup>th</sup> Annual Dan Popper Symposium in Eilat, Israel, 20 February 2006.
- 2007: Invited as **chairman and speaker** to IMBC 2007 8<sup>th</sup> Intl. Marine Biotechnology Conference in Eilat, Israel, 11-16 March 2007.
- 2008: Invited as **chairman and moderator** to the World Aquaculture Society meeting in Busan, South Korea in May 2008.

## A. 4. Invited as speaker

- 1990\*: Invited to the 10th Annual Shellfish Biology Seminar in the Northeast Fisheries Center Milford Laboratory. Connecticut, USA. Paper presented: "The integrated aquaculture system in Israel."
- 1997\*: Invited by the organizing committee to the 4<sup>th</sup> International Marine Biotechnology Conference. Sorrento, Italy. 22-29 September. Paper presented: "Integrated system in Israel".
- 1998\*: Invited by Sea Grant Extension Program to the conference of Marine Aquaculture: Emerging Technologies and Opportunities. Stamford, CT, USA. Paper presented: "Sustainable mariculture system."
- 2012 Invited to the Conference on Marine Environment and Aquaculture. Paper presented: "IMTA systems cost and benefit". Zhejiang Association of Sciences and Technologies. Wenzhou, China 91-3 November.

### (a) Presentations at international seminars and workshops

#### 1 International Workshops

1. 1993: Invited as **speaker** to workshop on fish farm effluents and their control in EC countries. Hamburg, Germany. November 23-25. "The use of the Pacific oyster, *Crassostrea gigas*, as a biological filter for marine fish aquaculture ponds."
2. 1994: Invited as **speaker** to the Second Japanese-Israeli Symposium on Aquaculture. Kagoshima University, Japan. Paper presented: "Culturing of abalone, *Haliotis tuberculata*, to convert seaweed from mariculture effluent biofilter into high value crop."
3. 1996: Invited as **speaker** to workshop by the University of Galway as a part of a "programme on international collaboration in Ireland". Presentation: "The role of artificial diet supplement and grow-out techniques in the development of the Irish echinoculture industry."
4. 2003: Invited as **keynote speaker** to NATO Advanced Research Workshop on "The Comparative Roles of Suspension Feeders in Ecosystems" in Nida, Lithuania, in October 2003.

5. 2005: Invited as a **speaker** to EFARO (European Fisheries Aquaculture Organisation) to present a paper on “State of the art and future developments of integrated systems” in February 2005.
6. 2005: Invited as **speaker** to Fishery Science Workshop in Qingdao, China via CIICTA 18-24 Nov. 2005.
7. 2010: Invited as **speaker** to the International Conference on Sea urchins aquaculture and restoration. Palermo, Italy. October, 7-10.
8. 2011 Invited to the International workshop on the status and management of the edible sea urchins *Paracentrotus lividus* in Mediterranean Sea. Palermo, 8-9 October
9. 2012: Invited as **speaker** to the Euro-Mediterranean conference on research and innovation. Barcelona, Spain. 2-3 April.
10. 2016: Invited as **keynote speaker** and Chairmen to APEC training workshop on coastal Eco aquaculture. Xiamen, China May 31-June 2, 2016.

**(b) Presentation of papers by Shpigel at conferences/meetings (oral or poster).**

1. **Shpigel, M.** (1980). The relationship between the spatial structure of branched corals and the species diversity of fishes. Zoological Society, Tel Aviv University. Isr. J. Zool. 29: 205.
2. **Shpigel, M.** (1985). The ecology and biology of the Red Sea groupers. Bien. Sci. Meet. of Interstate Inst. Interuniversity Institute, Elat, Israel, p. 18.
3. **Shpigel, M.** (1988). Gametogenesis and reproduction of *Crassostrea gigas* and *Ostrea edulis* in warm water system in Elat, Israel. Meeting of the Israeli Aquaculture Society. Haifa, Israel.
4. **Shpigel, M.** (1988). Mortality and diseases of *Crassostrea gigas* and *Ostrea edulis* in a warm system in Elat (Red Sea), Israel. Intl. Fish Health Conference, Vancouver, B.C., Canada.
5. **Shpigel, M.,** Lee, J.J. and Soohoo, B. (1989). Fish-oyster polyculture in warm water marine ponds. J. Shellfish Res. 8(2): 481.
6. **Shpigel, M** and Fridman, R. (1990). Bivalve culture in warm water marine ponds in Elat. 10th Annual Shellfish Biology Seminar, February 17-18, Milford, Connecticut, USA, p. 15. **7.**
7. **Shpigel, M,** Lee, J.J. and Shoocho, B. (1990). Fish-oyster mariculture in Elat, Israel. 82<sup>nd</sup> Annual Meeting of the National Shellfisheries Assoc., Inc. April, 1-5, Williamsburg, VA, USA, p. 481.
8. **Shpigel, M** and Fishelson, L. (1991). Results of removal of piscivorous groupers of the genus *Cephalopholis* from coral habitat. In the 27<sup>th</sup> Annual Meeting of the Zoological Society of Israel, Jerusalem Israel Journal of Zoology, 37(3): 163.
9. **Shpigel, M.,** Barber, B.J. and Mann, R. (1991). The effect of temperature on growth, physiology and gametogenesis in diploid and triploid pacific oyster *Crassostrea gigas* Thunberg. (Poster). June 10-12, Dublin, Ireland. European Aquaculture Society Special Publication No. 14. p. 294.
