

The University of Haifa | Department of Marine Geosciences

Seminar Program – Semester B (2023-24)

Hybrid! Mondays, 13:00 (Israel time, GMT+2) at room 1003 Terrace Building (Madrega).

Registration link for those who can't attend: <https://us02web.zoom.us/j/84321756330>

Zoom room opens at 13:00, seminar will start at 13:10

Seminar organizer: Prof. Nicolas Waldmann | nwaldmann@univ.haifa.ac.il

- | | |
|--------------|--|
| May 6, 2024 | Dr. Anna Brook, University of Haifa, ISRAEL
Applications of Remote Sensing in Geosciences |
| May 20, 2024 | Dr. Ido Sirota, GFZ-Potsdam, GERMANY
Tracing rate and extent of human induced hypoxia during the last ~200 years in the mesotrophic lake Tiefer See (NE Germany) |
| Jun 3, 2024 | Dr. Parth Shah, University of Haifa, ISRAEL
Late Holocene climate reconstruction from the southern Arabia: a tale of monsoons, humans, and lakes (<i>PhD defense talk</i>) |
| Jun 10, 2024 | Prof. Assaf Hochman, Hebrew University of Jerusalem, ISRAEL
Unraveling sub-seasonal precipitation variability and predictability in the Middle East |
| Jun 17, 2024 | Prof. Appy Sluijs, Utrecht University, NETHERLANDS
Orbital-scale tropical climate and biotic variability in the Eocene greenhouse world |
| Jun 24, 2024 | Dr. Babette Hoogakker, Heriot Watt University, UK
Changes in ocean oxygen contents: how the past can inform the future |
| Jul 8, 2024 | Dr. Daniel Palchan, Ariel University, ISRAEL
Beyond the roots – Foliar dust as a vital nutrient source for plants |
| Jul 15, 2024 | Dr. Sharmila Bhattacharya, Dept. of Earth and Environmental Sciences, IISER Mohali, INDIA
Impact of wildfires on the fate of Gondwana flora during the Permian-Triassic transition: A lesson for present and future? |
